DUKE TUESDAY IN UROLOGY

2018 JOHN E. DEES, MD LECTURESHP

John Essary Dees, MD was an urologist of the first hour who trained with the father of American Urology, Hugh Hampton Young, MD. After completion of his residency he joined Edwin P. Alyea, MD as the second member of the Urology Faculty at Duke University Medical Center.

Dr. Dees had a long distinguished career as a skilled surgeon and surgical innovator. He was a patient advocate and has served as a role model for generations of residents and fellows.

The John E. Dees, MD Lectureship honors the legacy of Dr. Dees and provides support for an annual lecture by outstanding experts in the field of Urology.

presented by HADLEY M. WOOD, MD

Dr. Wood has been a staff urologist at the Cleveland Clinic since 2009 and currently is Associate Professor at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University. She received her undergraduate degree from Duke University and Doctor of Medicine in 2003 from Johns Hopkins University School of Medicine. After training at the Cleveland Clinic Glickman Urological and Kidney Institute, she joined the faculty and is currently a member of the Center for Genitourinary Reconstruction. Her area of subspecialty is genitourinary reconstruction with a focus on adolescents and adults with urological congenital conditions.

In addition to full time clinical responsibilities and resident teaching, Dr. Wood has been continuously involved in clinical research and her work has been published in a number of peer reviewed journals. She serves as section editor for Urology and as associate editor for Annals of Plastic Surgery and Urology Practice and as a peer reviewer for many other journals. She has written 10 book chapters related to her specialty areas, and has co-edited the first textbook on Urological Congenitalism. As a member of the Physician Advisory Group of the Spina Bifida Association, Dr. Wood served on the Adult Urology Care Guidelines Committee and chaired the Mens’ Health Guidelines Committee. In 2018, she is co-chairing an International Consultation on Urologic Disease on Lifelong Care of Individuals with Congenital Urologic Diseases.

Previous JOHN E. DEES, MD LECTURESHP Recipients:

July 21, 2009
ROBERT P. MYERS, MD
