Statement of Need
This course is designed to address recent innovations in endoscopic procedures for bariatric surgery, advanced revisional surgery, metabolic surgery, and the management of weight regain after bariatric surgery. Learners will gain hands-on experience performing advanced, flexible endoscopy techniques and learn more about the integral role of these procedures in the management of bariatric complications. Learners will discuss the technical aspects of the most challenging procedures with faculty who are experts in their field.

Target Audience
This program is designed to meet the continuing education needs of bariatric surgeons, MIS fellows, general surgery residents, physician extenders, and allied health professionals.

Learning Objectives
At the conclusion of this activity, participants should be able to:
• Describe approaches and technical issues in various bariatric surgery procedures
• Describe techniques for revision of gastric bypass, sleeve, and banding procedures
• Discuss options for patients experiencing weight regain after bariatric surgery
• Explain laparoscopic and endoscopic management techniques for correcting complications
• Identify new and advanced concepts used to treat obesity and metabolic disease

ACCREDITATION
This activity has been planned and implemented by the Duke University Health System Department of Clinical Education and Professional Development and Cine-Med for the advancement of patient care. The Duke University Health System Department of Clinical Education and Professional Development is accredited by the American Nurses Credentialing Center (ANCC), the Accreditation Council for Pharmacy Education (ACPE), and the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing education for the health care team.

CREDIT DESIGNATION
Duke University Health System Department of Clinical Education & Professional Development designates this live activity for a maximum of 14.75 AMA PRA Category 1 Credit(s)™. Self Assessment credits toward Part 2 of the ABS MOC Program are also available. Physicians should claim only credit commensurate with the extent of their participation in the activity.

COMMERCIAL SUPPORT
This CME activity is supported by educational grants. A complete list of supporters will be published in the course syllabus.
